PROFILE

I am a motivated and hard working student at Connecticut College, aiming to major in Finance and minor in Film. I possess strong analytical and problem-solving skills, and have demonstrated the ability to balance academic rigour with extracurricular involvement which will make me a suitable candidate for any job that I am presented with. I am committed to learning, improving myself, both academically and professionally, and I am ready to contribute effectively in a dynamic professional environment.

WORK EXPERIENCE

Tutor and Classroom Manager

Learning Labs 2022-2024

- I tutored students from elementary through highschool in London, England, helping them improve their grades and excel with their exams, which included 11+, SATs and GCSEs.
- I tutored a range of subjects, such as English Language, English Literature, Mathematics, Biology, Chemistry, Physics, and logical and quantitative reasoning.
- In addition to being the tutor, I was the classroom manager which meant that I was in charge of the way the other tutors behaved and taught their classes, ensuring the classes were always in order and both the students and their parents were satisfied.

Social Media Content Creator

Instagram 2020-2024

- I have built an online community of over 2.5K followers on Instagram (@ocean_princess16), therefore I am well-versed with filming, editing and posting interesting videos regularly.

IT Admin

Five Star Chauffeurs 2017-2020

- I worked as an IT admin for a chauffeur company which meant that I answered phone calls, and recorded them in an online system to ensure that every customer was satisfied with the company's service.
